

Waste sorting: What goes where?

Non-recyclable waste → Black container

Non-recyclable waste is collected in the black container.

This belongs in the black container:

- Animal litter
- Nappies / hygienic items
- Porcelain
- Drinking glasses & broken glass
- Vacuum cleaner bags
- Street rubbish
- Parchment paper
- Dirty pizza boxes
- Wallpaper-leftovers
- Worn-out textiles
- Plastic household items

This does **not** belong in the black container:

- Batteries
- Waste paper
- Glass bottles
- Retail packaging
- Construction & demolition waste
- Electronics & computer parts
- Fluorescent bulbs
- Bulky waste

Organic waste → Green container

Compostable garden & kitchen waste is collected in the green container (or black container / green lid).

This belongs in the green container:

- Peels and scrappings from fruit and vegetables
- Cooked food leftovers
- Spoiled food without wrapping
- Coffee filters and tea bags
- Grass cuttings & leaves
- Flowers and pot plants

This does **not** belong in the green container:

- Milk & juice cartons
- Animal litter
- Ash & charcoal
- Animal carcasses & feces
- Plastic bags
- Bio coffee capsules
- Cigarette stubs
- Street rubbish

Paper/cardboard → Blue container

Paper and cardboard is collected in the blue container (or black container / blue lid).

This belongs in the blue container:

- Newspapers / magazines
- Brochures / catalogues
- Phone books
- Writing & computer paper
- Cardboard
- Wrapping paper
- Boxes
- Exercise books

This does **not** belong in the blue container:

- Wallpaper-leftovers
- Carbon paper
- Tar paper
- Milk & juice cartons
- Photographs
- Dirty pizza boxes
- Used paper handkerchiefs & hygienic papers

Packaging waste → Yellow container

Retail packagings (not made of glass or paper / cardboard) are collected in the yellow container (or black container / yellow lid).

This belongs in the yellow container:

- Plastic cups
- Milk & juice cartons
- Toothpaste tubes
- Shampoo bottles
- Composite material (aluminum- or Plastic-covered packagings)
- Plastic packagings
- Tins
- Aluminum & synthetic foils

This does **not** belong in the yellow container:

- Retail packagings made of glass or paper
- Nappies
- Paper handkerchiefs
- Toys made of plastic
- Laundry baskets & cleaning buckets
- Toothbrushes

Curbside collection and Self-delivery

Curbside collection:

Electronics

→ Will be collected by INTEGRAL (Registration via phone: 06421/944144) / Small devices can also be brought to the municipal building yard.

Bulky waste

→ Online registration via the homepage of the MZV / Bulky waste registration card (available at your city administration / at the MZV). Applicants will receive a written confirmation prior to the appointment.

→ Bulky waste is for example: furniture, carpets, mattresses. For more information see:

→ www.mzv-biedenkopf.de/sperrmuell

Scrap metal

→ Collected together with bulky waste / Local collection / Entsorgungszentrum MR-BID

This must be self-delivered:

Special / hazardous waste & substances

→ Can be brought to special vehicles: Dates and collecting locations are announced in the waste calendar.

Batteries

→ Monthly collections (see homepage of the MZV) & small containers in shops and grocery stores

Old clothes & shoes

→ Charitable collections

Glass without deposit

→ Glass container. In case of a container overload, please contact the MZV.

Does not belong in the glass container: Porcelain, ceramic, drinking glasses (black container), window glass can be brought to the Entsorgungszentrum MR-BID

Construction & demolition waste

→ Small amounts: Container of your municipality (location see waste calendar) / Entsorgungszentrum MR-BID

Tree & branch cuttings

→ Astschnittplatz of your municipality (opening hours see waste calendar) / Kompostierungsanlage Kirchhain-Stausebach / Entsorgungszentrum MR-BID
Cuttings, for example grass- & shrub cuttings (regular garden waste) can be recycled in the green container.

Old tires

→ Entsorgungszentrum MR-BID / Auto part dealerships

Entsorgungszentrum Marburg-Biedenkopf (MR-BID)

Address: Siemensstraße 5, 35041 Marburg

Phone: 0800/2531000

Self-delivery: Residual & bulky waste, organic waste, paper, scrap metal (only small amounts), small electronic devices and construction & demolition waste

For prices and more information see: www.a-lf.de

Good to know!

When will my container be emptied?

You can always take a look at your current waste calendar – to be super safe use our online reminder in addition!

What is the meaning of the "R"-, "R1"- and "R2"-stickers on the residual waste container?

These stickers indicate in which cycle the black container is emptied.

"R" = every 2 weeks / "R1" & "R2" = every 4 weeks

How can I prevent my bio container from freezing over in winter?

You can use wood shavings to cover the floor of the container. Damp waste can be wrapped in newspaper. In addition it helps to lift and loosen the waste from time to time.

My waste volume has changed, how can I adjust my containers?

This has to be done in written form - simply send us an e-mail or fill in the documents available online.

I would like to use my containers together with my neighbor, is that possible?

Yes. Both neighbors have to agree to this and the properties must be directly next or opposite to one another.

Our homepage offers you many services online. Interesting articles on current topics on waste disposal can also be found here.

→ www.mzv-biedenkopf.de

Never again forget to take the container out! Our app will notify you in time!

→ www.mzv-biedenkopf.de/mzv-app

How do I get rid of the old iron? From "Abbeizmittel" to "Ziegel", you will find information on the disposal of your waste in our Abfall-ABC.
